

Date: 7/20/2016

Dear EPA,

Please accept my comments to the Portland Harbor Superfund proposal released by the EPA in June. As an employee of The Greenbrier Companies, I am concerned that the plan is too extreme. It relies on data that is more than ten years old, negatively impacts our company's operations and will increase my own utility bills and water/sewer fees. Our Gunderson operations in Portland feature the only sideways launch for marine vessels west of the Mississippi and provide nearly 1,200 family-wage jobs. I urge the EPA to support a more cost-effective plan that relies on the most current data, preserves local jobs and protects us from unnecessary cost increases.
